Hi Julie,

First and foremost, thank you for your help. I wanted to touch base with you regarding the discovery package (the current one) for the drugs samples we discussed and the CV information for the Chemist that will do the retest (I believe Kate Corbett) to get a sense of when you will have a chance to send that information along.

Thank you,
Tavares

Tavares - We would be happy to assist. I am not sure what your "expert disclosure being due next Friday" means? Do you need the retests by next Friday or do you just need to know who will do the retests and we can have the testing done prior to April 23rd - the trial date? Can you let us know when

the testing would need to be done? I have cced Julie Nassif who is the lab director and will coordinate with you. Thanks. Donna
